WORD OF THANKS

.....to all our helpers, without your constant assistance we could not manage. With your help we can go forward with renewed hope and a strong faith. We are also grateful to all who supported the Priests of the Parish during the past year.

EASTER REFLECTION

Remembering Jesus' life, his words and the experience of being in his presence enabled his followers to cope with their fear and to bring the message of his Resurrection to others. **This is Easter.**

When we remember, we find that Easter surrounds us in every circumstance of life.

Easter does not change our reality but it is an invitation to awareness of another kind of reality and way of living. Every aspect of human living is a gift and also a responsibility, a promise and an uncertainty. Life experiences can rock us back and forth between total trust and the deepest despair. We live between the threshold of faith and doubt, between joy and sadness. The invitation of Easter is to remember that **Jesus is Risen** in each of those experiences.

In birth and in new life, **Jesus is Risen.**

When the night is dark, we know the dawn will morning, **Jesus is Risen.**

In our world so full of suffering, the people of hope, who reach out and give time and energy to ease the pain they see, **Jesus is Risen.**

In a time of grief when a wave of loss surrounds us and then there comes a moment of peace, **Jesus is Risen.**

When there is forgiveness in the face of hurt and disappointment, **Jesus is Risen.**

These Easter days are **a time to remember** all that "He has told us" in our own life stories.
